#	Classification	Risk Identified	Description	Area of Interest	Responsible Person(s)	Changed	From	To	Controlled Rating at 26/11/2019
61		Dealing for groups with disabilities	Increase risk of injury or potential crowd disorder due to obstruction caused by wheelchairs.	GUILDHALL, EVENTS	Nick Coles	Created on 17/09/18	8	8	MEDIUM 8
Current Controls				Review Notes					
A designated area is provided for wheelchair users and helpers for events held in the main auditorium. Wheelchair platform lift provided on site. Red flashing beacons indicate fire alarm activation.				Evacuation training has taken place, evac chairs in place and staff trained					
64		Alcohol available on site	Increase risk of injury or potential crowd disorder due to too much alcohol.	EVENTS, Basement bar , 1st FLOOR, MAIN AUDITORIUM, DOOR/QUEUE AREA	Pete Haslam	Created on 17/09/18	6	6	MEDIUM 6
Current Controls				Review Notes					
Staff adhere to licencing laws. Staff adhere to 'if in doubt, request identification'. Alcohol sold only in plastic containers at concerts and shows Decant policy in place Security staff are employed at appropriate events to control crowds. Staff trained in licensing laws. Think 25 policy in place Refusal logs used refusals communicated via radio to all bars									
66		Possible crowd pressure at entrance and exit doors	Increase of risk of crush injuries to staff and customer	EVENTS, DOOR/QUEUE AREA	Ian Featherstone	Created on 17/09/18	3	3	LOW 3
Current Controls				Review Notes					
Staff are positioned in areas around the building including exits, where they would assist the movement of crowds. Security staff would assist FOH staff in crowd control. Further exit doors would be open to reduce pressure on normal exit routes. Staff trained in egress procedures and emergency procedures				02/09/2019 Reviewed and no changes required					
67		Will sound quality be suitable for the event	Increase risk of injury or potential crowd disorder due to poor quality eg. crowding at the front of stage.	Club Night Student, Club Night - Non Student, Music - Standing, Outdoor, External Guildhall Square, MAIN AUDITORIUM	Craig Patterson	Created on 13/02/19	6	6	MEDIUM 6
Current Controls				Review Notes					
Production companies given time to rehearse/test equipment before event. equipment serviced and maintained. Noise level reading taken annually and any actions acted upon									
69		Are the means of escape adequate in event of an emergency	Increase risk of injury or potential crowd disorder due to lack of escape routes from building	GUILDHALL, EVENTS	Nick Coles	Created on 28/12/18	8	8	MEDIUM 8

#	Classification	Risk Identified	Description	Area of Interest	Responsible Person(s)	Changed	From	To	Controlled Rating at 26/11/2019
Current Controls				Review Notes					
All emergency exits are checked before the start of the event/function and staff being vigilant during event. Door maintenance checks/service contract with approved supplier. Capacity is calculated by the number of exits available. Layout of furniture, exhibition stands etc are planned so they do not block fire exits and escape routes.									
75		stage pyrotechnics	Pyrotechnics being used.	GUILDHALL, EVENTS, External Guildhall Square	Craig Patterson	Created on 13/02/19	3	3	LOW 3
Current Controls				Review Notes					
Production riders are checked by the stage manager before the event and any concerns regarding excessive use of pyro should be spoken with production manager.									
83		Working at height	Staff, contractors, riggers and performers.	GUILDHALL	Nick Coles	Created on 29/12/18	8	8	MEDIUM 8
Current Controls				Review Notes					
All platforms for performers and others are adequately fenced. Edge of stage highlighted with white tape. Ladders to be suitable, regularly inspected and used for light work and short duration by trained staff. Only trained authorised persons to work on lighting rig. All work at height by contractors is done under a permit to work system.									
93		Access to auditorium during set ups	Risk of serious injury to staff if equipment falls on them.	GUILDHALL	Craig Patterson	5/07/19	12	9	MEDIUM 9
Current Controls				Review Notes					
Site policy limits access through the auditorium during set ups. Signs displayed on all doors leading to auditorium. Physical barriers on doors around working area. Stage manager responsible for monitoring site policy.									
99		Scenery and props	Scenery and or props on and off stage falling over and causing serious injuries. Unsecured scenery can be dangerous if knocked into or weather conditions change scenery could be tampered with if public gain unauthorised access scenery and props should be flame retardant where possible.	GUILDHALL, EVENTS, External Guildhall Square	Craig Patterson	Created on 3/07/19	6	6	MEDIUM 6
Current Controls				Review Notes					
Scenery and props stored in a safe manner by stage crew. Scenery secured on stage by stage crew. Weather conditions could change, so a weather forecast should be accessed before buildings. Scenery shouldn't be accessible to public or anything that is incompetent scenery and props should be flame retardant where possible. Signage should show public and staff where is prohibited. Low light levels should have signage to guide staff and performers to the correct way. Sharp edges should be covered.									

#	Classification	Risk Identified	Description	Area of Interest	Responsible Person(s)	Changed	From	To	Controlled Rating at 26/11/2019
105		Large amount of equipment back stage when a show is being rigged/de-rigged and during performance.	Staff, performers and production crew could suffer injuries if they knock into flight cases etc or find their route blocked if they need to leave the building in an emergency.	GUILDHALL, EVENTS, External Guildhall Square	Craig Patterson	Created on 3/07/19	9	9	MEDIUM 9
Current Controls				Review Notes					
Stage crew to ensure back stage is kept tidy and routes to fire exits are kept clear. Some flight cases are moved to other storage areas before performance. Constant vigilance by stage crew. If lighting is low then glow tape should be used to mark a clear route between storage to exits.									
106		Equipment being moved on/off ramp could be unstable and unpredictable.	Stage crew/personnel delivering equipment could suffer serious injuries if hit or crushed by equipment.	EVENTS	Craig Patterson	27/06/19	6	3	LOW 3
						27/06/19	12	6	LOW 3
Current Controls				Review Notes					
Back stage is cleared and made ready for delivery of equipment. Ramp checked before use and is signed off as secure and recorded. Unloading/loading of equipment to be done by equipment supplier only under supervision of PCT staff. Persons moving equipment should be wearing appropriate PPE such as steel toe cap boots to protect their feet. Flight cases should be moved by more than one person. Barriers in place around the north side of vehicle to stop persons walking into vehicle area. Barriers placed under the side of loading ramp at ground level to stop people walking under the ramp. Back stage security in place to stop unauthorised access back stage. Building work completed for a new loading area with a less steep incline. Vehicles able to reverse to ramp directly without risk of impact with trees and pedestrians.				Risk reviewed and whilst tolerable changes are required to loading bay inline with proposed actions given to PCC for changes to make the area a safer working environment. Following the construction of the new loading bay and re assessment the practice is now much safer with lower gradient and less manual handling of heavy flight cases.					
109		Electric shock	Staff could suffer severe burn injury.	DEPARTMENTS, GUILDHALL	Nick Coles	Created on 29/12/18	10	10	HIGH 10
Current Controls				Review Notes					
Staff are trained to check equipment before use. Use battery powered tools if possible. The equipment is periodically tested. Stop using equipment immediately if it appears to be faulty.									
111		Noise	Staff could suffer hearing loss.	GUILDHALL, EVENTS	Nick Coles	Created on 31/12/18	6	6	MEDIUM 6
Current Controls				Review Notes					
Ear defenders are provided and worn. Recording of sound levels at events. Signage in place to notify of loud noise.									

#	Classification	Risk Identified	Description	Area of Interest	Responsible Person(s)	Changed	From	To	Controlled Rating at 26/11/2019
127		Young persons performing on stage and using other areas of the building, unfamiliar with area.	Increased risk of injury to young person due to slip, trip or falls on and off the stage.	MAIN AUDITORIUM	Craig Patterson	Created on 7/03/19	8	8	MEDIUM 8
Current Controls				Review Notes
